

Old Strathcona Business Association 2022 Operating Budget & Strategic Priorities

2022 Budget Overview

- We are proposing maintaining the BIA levy for a second year. We will be supplementing our budget by utilizing some savings and grants.
- We've reduced administrative operational costs by moving our offices to a co-working space, resulting in over a \$25,000/year savings.
- We're increasing our staffing costs, as we plan to hire summer students and interns throughout the year, which will largely be offset through grants.
- We've reduced our placemaking budget but increased our street cleaning to include power washing of sidewalks during the summer. We've increased our flower and greenery budget to allow for more widely distributed greenery in the district. *We've applied for a grant for a placemaking project that would allow us to build parklets, benches and bike racks. If awarded, this would add another \$250,000 to the budget, all focused on placemaking.
- We've allowed for a larger contingency budget, as we expect that plans will have to be adjusted throughout the year, so we have some flexibility.
